

## QUALITY POLICY STATEMENT

*Our objective at Flite Path is to meet or exceed our customer's expectations in our core business of supply to the Aerospace and allied industries. We take pride in the commitment and achievements of our people in providing the required spare parts and services for all past and prospective clients.*

*This policy serves as the catalyst for setting Flite Path's Quality objectives.*

*The Flite Path Quality Management System has been prepared to meet the requirements of the Quality Standard AS/NZS ISO 9001:2015, as part of a Total Quality Management environment. The policy requires that we achieve total customer satisfaction by meeting or exceeding customer, statutory and regulatory authority requirements, by delivering products and services on time and error free and by continuous improvement of the processes utilised by Flite Path.*

*To support Flite Path management, all employees are encouraged to identify and report on all quality matters. Flite Path management will actively promote a Continual Improvement philosophy through regular communication with employees, customers and suppliers. Commitment by each Flite Path employee to this policy will ensure totally satisfied customers.*
